

**MESA
COUNTY**

Mesa County Strategic Plan

June 2025

Executive Summary

First and foremost, thank you to all County staff and elected officials. Your continued dedication, professionalism, and service make this work possible. I deeply appreciate your contributions to this organization and to the people of Mesa County.

Mesa County's focus on thoughtful, transparent governance continues to guide our work. Since the original Strategic Plan was adopted in June 2022, much has changed, including new leadership across the County. This transition provided a valuable opportunity not to rewrite the plan from the ground up, but to revisit and refresh it in order to clarify our collective path forward.

We retained the original strategic framework to honor the strong foundation built in 2022. However, we updated the initiatives, goals, and action items throughout the plan to make the language more accessible and actionable for all stakeholders, both internal and external. Our aim is simple, ensure that every reader understands not only what we are working toward, but why it matters and how they can contribute.

Several meaningful changes were made, including the addition of a new County value: **Stewardship**. This principle serves as a vital foundation for achieving our strategic initiatives and reflects our commitment to the ethical and efficient management of public finances and resources. Additionally, we replaced the value of *Servant Leadership* with **Service** to better reflect our emphasis on putting others before ourselves. We also refined the definitions of several existing values to more accurately align with the County's evolving priorities and direction.

In alignment with these updates, we retired two strategic initiatives from 2022:

- **Build Community, Together:** While its intent was sound, the initiative proved too broad in scope to effectively guide action. Elements of this commitment have been incorporated into other initiatives where they can be more clearly executed and measured.
- **Build Fiscal Stability:** This initiative has largely been institutionalized through improved financial policies, stronger budget planning, and ongoing oversight. Its key objectives are now embedded in our operational culture and reflected in our core values.

To build on our momentum and emphasize our long-term vision, we have introduced a new strategic initiative titled **Leaning Into the Future**. This initiative reflects our proactive approach to long-term planning, economic resilience, and community development. It signals a bold, collaborative approach to preparing Mesa County for the challenges and opportunities ahead.

We remain proud of what has been accomplished and energized by what lies ahead. Thank you for your continued partnership in building a stronger, more vibrant Mesa County.

Introduction

This strategic plan is an intentional and action-oriented roadmap to guide decision-making in Mesa County.

It moves us from where we are toward our Vision, to be *the best place to live, work and play for all generations*. Our Mission statement, *providing the infrastructure so you can live the life you want*, and Values are guideposts along that journey for what we're working to accomplish and the imperatives for getting that work done.

This plan is a product of input from staff, department heads, and leadership. It is uniquely Mesa County and is focused on forward momentum and meaningful action.

Shaped by our Vision, Mission, and Values, three initiatives focus our goals and actions.

1. *Building the Best Team* provides the foundational, people-infrastructure necessary to get the work done. It's who we are.
2. *Delivering Excellence* intentionally challenges that best team in what we do day-to-day for those who have entrusted us with these solemn responsibilities. It's what we do and how we deliver.
3. *Leaning Into the Future* focuses on the imperative to think beyond today and toward the ever-changing environment affecting our Vision and Mission. It's how we prepare for tomorrow.

Finally, our pursuit of excellence demands we not only measure ourselves, but that we do so against best in class. Performance Metrics are collocated alongside goals and initiatives and summarized in a stand-alone section later in the document.

We believe the Initiatives, Goals, Actions, and Performance Metrics identified in this plan guide our collective actions for the foreseeable future. They demand our vigilance and adaptability as Colorado grows and thrives. And, plainly, we intend to be in the vanguard of that growth.

Vision

We are the builders of the best place to live, work and play for all generations.

**We Are
Team Mesa**

Mission

We provide the infrastructure so you can live the life you want.

Values

Values are enduring, core beliefs that influence attitudes and behaviors. Values guide decision-making by defining how to achieve the vision.

Excellence

In all we do, individually and collectively, we strive for the most outstanding results for those we serve

Collaboration

We work together, leading toward a shared purpose

Transparency

We are open in our decision-making to build trust

Communication

We listen to each other; we communicate openly and value everyone's input

Principled

We stick to what we believe and are innovative in our approach

Service

We put others before ourselves

Proactive

We are active problem-solvers for today and the future

Stewardship

We ethically manage finances and other resources under our supervision with integrity and efficiency

The Plan

This section of the document outlines our goals, actions, and performance metrics across three initiatives identified for Mesa County.

The Plan's Framework

Initiatives are areas of focus that describe, in a specific and unambiguous way, high-level efforts toward achieving the Vision.

Multiple **goals** under each initiative highlight the granular areas of achievement we seek as an organization. They are purposefully selected as reasonable and attainable steps to achieving specified initiatives.

Actions reflect the to do list appropriate to achieving each goal. Each is Specific, Measurable, Achievable, Relevant, and Timely (SMART). Champions across the County's organizational structure are identified to lead the charge.

Performance Metrics are quantifiable and qualifiable data points used to collect, track, and analyze County progress over time. Each has been considered against best in class and includes the metric itself, as well as means to gather that data and the frequency for tracking the metric.

Initiative and Goals Overview

We are...

Building the Best Team

1. Attract and Retain Top Talent
2. Improve Employee Engagement
3. Optimize Individual and Team Capabilities

Delivering Excellence

4. Leverage Interdepartmental Synergies
5. Establish and Maintain Two-Way Community Engagement
6. Provide Best-in-Class Services

Leaning Into the Future

7. Influence Regional, State and Federal Partners
8. Proactively and Responsibly Adapt
9. Act with Responsibility for the Future

Initiative 1: Building the Best Team

Building the Best Team

1. Attract and Retain Top Talent
2. Improve Employee Engagement
3. Optimize Individual and Team Capabilities

Goals

Team Mesa is, and will continue to be, Mesa County's most important and best asset toward meeting our Mission and advancing the County toward its Vision. Building the Best Team is about prioritizing formal and informal programs in a way that strengthens our best asset. It is focused internally, on those engaged in doing the County's business on a day-to-day basis and serves as the foundation for all other initiatives.

1. **Attract and Retain Top Talent.** This goal focuses on actions that ensure Mesa County assembles the most talented and capable; those interested in building a professional life here while serving our citizens.
2. **Improve Employee Engagement.** This goal encompasses those actions required to transform raw talent into a committed workforce with the aim of retaining and improving those who've chosen to be a part of Team Mesa.
3. **Optimizing Individual and Team Capabilities.** This goal, a contributing and complementary aspect of enhancing employee engagement, focuses on addressing skills gaps and growing our people in ways that enables providing best in class services.

Initiative 2: Delivering Excellence

Delivering Excellence

4. Leverage Interdepartmental Synergies
5. Establish and Maintain Two-Way Community Engagement
6. Provide Best-in-Class Services

Goals

For Mesa County to succeed in providing “the infrastructure so you can live the life you want” (our Mission) and work toward building “the best place to live, work, and play for all generations” (our Vision), we must not simply provide services, but deliver them with excellence.

4. **Leverage Interdepartmental Synergies.** This goal builds on that best team, practicing and demonstrating synergy to our citizens. We implement the “no wrong door” philosophy in everything we do. This means we will ensure individuals seeking services are connected appropriately regardless of the point of contact within the organization.
5. **Establish Two-Way Community Engagement.** Sustain transparency in what we’re doing and why, while establishing a robust portfolio of feedback modes that enables our citizens to engage, express support and desire for services, and provide feedback on how well those services are being delivered.
6. **Provide Best-in-Class Services.** We’ll deliver with excellence in all we do.

Action 4.1. Follow-Through on Process Automation and Efficiency Project

Outcome: Enhance service to our citizens by optimizing County processes and procedures, where possible.

Initiative 3: Leaning Into the Future

Leaning Into the Future

7. Influence Regional, State and Federal Partners
8. Proactively and Responsibly Adapt
9. Act with Responsibility for the Future

Goals

Vision statements are inherently aspirational aim points for organizations that set long-term direction. In achieving the County's vision, therefore, it is critical that we not only deal with what is but anticipate what might be and then posture ourselves accordingly. This initiative addresses that challenge.

- 7. Influence Regional, State and Federal Partners.** This goal requires our proactive engagement with all stakeholders at all levels on issues that potentially impact our citizen's way of life, or that affects County operations through funding, regulation, or policy. We ensure evolving community needs and priorities are represented to those stakeholders and effectively considered.
- 8. Proactively and Responsibly Adapt.** We must build services, teams, process, plans, and codes grounded in growth modeling while remaining cognizant of emerging risks and opportunities. This goal additionally foregrounds the flexibility that allows the County to nimbly pivot, as needed.
- 9. Act with Responsibility for the Future.** As we execute today, this goal ensures we sustain visibility and balanced decision-making to what's next (new projects) and discipline to what's now (legacy projects) via the budget and resources. We will consider and leverage selective strategies to allow for smart investment and tailored growth.

Action 7.1. Engage Appropriate Influencers/ Partners

Outcome: Team Mesa sustains awareness of forces that potentially impact Mesa County while ensuring external influencers/partners are cognizant of our concerns/positions/impacts.

Activities	Who Leads	Who Supports/ Provides Input	Timing

C Approach to this Strategic Planning Cycle

The intent behind this plan's update is described by the County Administrator earlier in this document in the Executive Summary (see page 2).

The various activities reflected above began in early March and were executed over an approximate three-month timeframe.

For this effort, the County engaged Catalyzer, Inc., a leadership development consultancy with significant experience in Mesa County and with multiple County departments.

Their efforts were coordinated through the County Administrator.
